

## Green day celebration in ECCD Lab Nursery School

The Green day was celebrated in lab Nursery school running of HDFS department on 31<sup>st</sup> July 2024.

The basic aim to conduct this activity was to taught the pre-nursery and nursery school students the identification and recognition of green fruits vegetables leaves and plants .Many activities pertaining to green colors were organized for the kids .The students and teachers came to school dressed in pretty green attires and looked eco friendly. The day began with prayer thanking to god for the green nature. The classrooms were decorated beautifully on green theme and all the objects from the children's immediate surroundings were brought to the classroom.

The children actively participated and enjoyed all the activities .Teachers assisted them in colouring and pasting the tree. They also had the joy of holding the green colour vegetables like bottle gourd, capsicum, cucumber, chilies, bitter gourd green apple, guava, etc. They also walked and talked with nature and learnt about different plants in the garden. In all it was a very fun filled experience for the kids.
